1 DAQ

Sven-Patrik Hallsjö notes that we do not currently understand the data format. It seems to be corrupted. Can someone check this?

Etam Messomo adds, something is strange. I will check the hex code and the frond-end board to see where the fault is. It could be corrupted by sending or reading incorrectly.

2 Current status

Sven-Patrik Hallsjö adds, a lot is in place, we just need to understand data.

3 News

Glasgow is now officially an institute in babyMIND
