

babyMIND software meeting

Minutes taker Sven-Patrik Hallsjö

Those present Ryan Bayes, Etam Messomo, Saba Parsa.

Location of the meeting Skype

Date February 5, 2016

Overview of topics

1	Choosing a suitable meeting time for future meetings	1
2	Current limitations in the software	1
3	How to handle multiple developers on the code	1
4	Other topics	2
5	Next meeting	2

1 Choosing a suitable meeting time for future meetings

The meeting agreed on a meeting time for future meetings: Fridays 10-11 GMT.

2 Current limitations in the software

Patrik discussed where the software package is currently and what limitations exist. These are formulated in a short introduction to the code and a ToDo list.

3 How to handle multiple developers on the code

As of now two lists will be distributed, one with a short introduction to the code and one with a ToDo list of what is needed to be done with the code until a first release. These lists will be distributed to the developers. At a later stage a list of what simulations are needed will be distributed.

It was agreed to setup a framework where tasks can be easily handed out so that there is an overview of the code and its status.

Task: Create this frame work at Glasgow University. (Sven-Patrik Hallsjö)

4 Other topics

INR will present software status next main meeting. Will have to open a channel for discussion with them.

5 Next meeting

Friday the 12/2-16 at 10 am GMT.
