babyMIND software meeting

Minutes taker Sven-Patrik Hallsjö

Those present Etam Messomo, Saba Parsa, Ryan Bayes, Tatiana Ovsiannikova.

Location of the meeting Skype

Date April 15, 2016

Overview of topics

1 Schedule for collaboration meeting

Each of the simulation will give a talk. Perhaps even two talks, one with the framework and one of the results.

2 Introducing a pickup coil

Etam Messomo explains that plans existed, but density of the coil was assumed to be very dense. There is an advantage of design that allows this to be done. Question to magnet guys can we do this for every plane? A subset motivation for field uniformity

3 Progress of framework for multiple developers

Sven-Patrik Hallsjö, finally have a gitlab working, as of now only locally accessible.

4 Next meeting

Friday the 22/4-16 at 10 am BST via Skype.
