babyMIND software meeting

Minutes taker Sven-Patrik Hallsjö

Those present Saba Parsa, Ryan Bayes, Etam Messomo, Alexander Izmaylov

Location of the meeting Skype

Date May 27, 2016

Overview of topics

1 Clashing T2K meeting

Alexander Izmaylov informs us that there is a T2K collaboration meeting that clashes with this meeting.

2 Current progress

Etam Messomo informs from Wednesday, trigger system and assembly zone almost complete. All modules for beam test moved to assembly zone. Scintillating slabs, have been compared. Hardware, working to get out timing information and amplitude in the same data stream.

Ryan Bayes informs of the work in Glasgow, Sven-Patrik Hallsjö has worked with reconstruction, cleaning up bugs, and improved the code and reconstruction efficiency significatly. This will be presented on our Wednesday meeting. Working now with testbeam digitization and reconstruction.

3 T2K code

Alexander Izmaylov is talking to T2K and will hopefully be able to share the code soon.

4   Next meeting

Friday the 3/6-16 at 10 am BST via Skype.
